## FOURTH ANNUAL REPORT

07

# Kome Missions

OF THE

## PRESBYTERIAN CHURCH.

THE Board of Home Missions of the Presbyterian Church in the United States of America, beg leave to present its Fourth Annual Report to the General Assembly.

We desire, before all other things, to acknowledge the mercy and loving kindness of the Great King and Head of Zion to the Board, the missionaries, their families and fields of labor, and for the measure of success and prosperity enjoyed in the support and extension of the Gospel throughout our great country.

Before entering upon the work of the last year, it will be profitable to recall the attention of the Church to the wonderful dealings of God in the Home Mission work in our past history. From the first settlement of the Presbyterian Church on this continent, it has regarded itself as a Missionary body, and this country as its great mission field. The work of aiding feeble congregations, and the sending out and supporting missionaries in the new settlements and the frontiers, was conducted, at first, directly by the Presbytery,—later by the Synod,—and afterwards by the General Assembly itself. The work grew so rapidly, that in 1802 the Assembly appointed "The Standing Committee of Missions." In 1816, this Standing Committee was raised to a "Commission," styled "The Board of Missions," with larger powers, and charged with a wider field of operations.

After the "Division" of 1837, this Board of Missions continued with, and was conducted by, the Old School branch, until the Re-union of 1870. The New School branch conducted its operations, in connection with the American Home Missionary Society, for some time after the year 1837, but a growing desire for more distinctive Church work led to the organization of the "Church Extension Committee" in 1855, which gave place to "The Presbyterian Committee of Home Missions," organized in 1861. This continued until the Re-union of 1870.

These two organizations were then, by order of the General Assembly of the re-united Church, merged into one,—this Board of Home Missions of the Presbyterian Church in the United States of America. To this Board is committed the work of aiding feeble churches in the support of their ministers,—of sending out missionaries to preach the Gospel—and of planting churches in new and destitute sections of the country.

How successfully, under God's blessing, this great *Home Missionary work* has been conducted, is seen in the fact that 160 years ago, there were but 7 ministers and 12 churches of the Presbyterian family in the land, viz.: 1 in Virginia, 4 in Maryland, 5 in Pennsylvania, and 2 in the "Jerseys." In 1710, these seven ministers, as a Presbytery, supplicated the ministers of London to grant them a young man, with £60 for his support, to itinerate among the destitute and scattered people of God throughout these "new settlements." In five generations since then, the Presbyterian denomination, in its different branches, has grown to have about 8,520 ministers, 10,450 churches, a million members, contributing during the last year, \$13,454,000 for benevolent purposes! Our own particular branch consists of 4,882 ministers, 4802 churches, a half million members, contributing \$9,622,000 for religious objects.

This can otherwise be seen in the growth of our body in the last fifty years. Our rolls now, in 1874, are larger by 3,070 churches, 3,370 ministers, and 370,000 communicants than in 1824, a half century ago. The Church then, in 1824, was chiefly confined to the Middle and Southern States on the Atlantic coast. Now, in 1874, it extends from the St. Lawrence to the Rio Grande, and

from ocean to ocean. Scarcely a church in the West, and but two on the Pacific Coast but are indebted, directly or indirectly, to missionary aid.

During the four years since the Re-union in 1870, there have been raised by this Board of Home Missions, for its legitimate work, \$1,214,886, at the rate of \$303,721 per year, and supporting an annual average of 1,095 missionaries, by whom 3,500 churches and stations have been supplied with the Gospel, in 38 of our States and Territories; 655 new churches have been planted, 1,371 Sabbath Schools organized, and 43,157 members added to the Church. At the close of these four years, may we not exclaim with gratitude and joy, "God hath done great things for us, whereof we are glad!"

## THE PAST YEAR.

Having thus recalled the loving-kindness of the Lord in the past, we now recount the history of His dealings during the year. The work has had its vicissitudes.

### THE WORK.

There have been in commission during the year, from April 1st, 1873, to April 1st, 1874, 1,012 men, laboring in the following 36 States and Territories, viz.:

CALIFORNIA	MONTANA TERRITORY 4
COLORADO TERRITORY 18	NEBRASKA 30
<b>DAKOTA</b> " 1	NEW JERSEY 33
DELAWARE 4	NEW MEXICO TERRITORY 3
DISTRICT OF COLUMBIA 1	NEW YORK 71
FLORIDA 2	NEVADA 4
ILLINOIS116	NORTH CAROLINA 2
INDIANA 52	ОНІО 61
INDIAN TERRITORY 1	OREGON 10
IDAHO " 1	PENNSYLVANIA 74
IOWA 99	TENNESSEE
KANSAS 73	TEXAS 6
KENTUCKY 15	UTAII TERRITORY 2 °
MARYLAND 15	VIRGINIA 2
MASSACHUSETTS 1	WEST VIRGINIA 18
MICHIGAN 50	WASHINGTON TERRITORY 3
MINNESOTA 45	WISCONSIN 49
MISSOURI85	WYOMING TERRITORY 3

### DEATHS.

Of the above missionaries, the following have departed this life during the year, viz.:

Rev.	ELLIS W. LAMB, .	April 2d,	1873.
"	John Summers,	Oct. 8th,	
"	L. P. Sabin,	Nov. 10th,	"
66	MELANCTHON HUGHES,	Nov. 18th,	44
"	J. Sanford Smith.	Sept.,	44
"	M. B. GREGG.	_	
46	J. MEAD DRAKE, .	Dec. 7th,	1873.
64	H. J. Aikens,	Jan. 3d,	1874.
44	S. A. McElhinny, .	Jan. 29th,	44
44	S. B. Shaw,	March 22d,	44

These all having testified the Gospel of the grace of God, entered with peace and joy into their everlasting rest.

### CHURCHES AND STATIONS SUPPLIED.

Some 3,500 churches and stations have been statedly or oceasionally supplied with the Gospel by the missionaries. A greater number might have been reached but for the want of men and means for their support.

### PROGRESS.

153 new churches have been organized, and many new fields visited where promising congregations will ere long be gathered.

273 new Sabbath Schools have been organized during the year. 1,210 Sabbath Schools are connected with our churches, embracing some 100,000 children, teachers and officers. In many of these schools the catechism is taught in connection with other scriptural instruction.

In addition to the work in the older States, new beginnings have been made in Miehigan, Wiseousin, Minnesota, Dakota, Iowa, Nebraska, Kansas, Missouri, Arkansas, Texas, The Indian Territory, New Mexico, Wyoming, Utah, Nevada, Montana, Idaho, California, Oregon and Washington Territory. If our income had been more abundant, many other promising places could have been oecupied.

### FINANCIAL.

The Fiscal Year of the Board has been one of great perplexity and trial. From the very first, a deep concern was created by the action of the last Assembly, reducing the apportionment of the Board of Home Missions from \$475,000 to \$352,500, a reduction of \$122,500! Then the great reduction in the Board's pro rata of moneys undistributed by the donors, increased the concern. For, although not so intended, it lessened the importance of Home Missions in the practical estimation of the Church. This is seen in some measure in the great falling off of \$25,494, in the collections from the churches, from the former year. Does 23½ per cent. of the means of the Church represent the true proportion for the great work of Home Missions? Is this the settled estimate of the value and importance of preaching the Gospel in feeble churches and new and frontier settlements throughout this great land? Is this to be the measure of its value to be inculeated and practiced throughout the Church, by authority, in the distribution of her benefactions? We implore the Assembly to give no such ground to a suspicion that Home Missions are not to be pushed as vigorously and as extensively as in former years. Our Church cannot fall backward without disaster to Missions, and equal disaster to the Church and the country. Never was there a time of so much hope of progress, and promise of success. The whole country, notwithstanding the great financial crisis, is striding to material great-The very solitudes of the mountains are being peopled, as if by magie,—towns, villages, and communities, are born in a day, new spiritual harvests, ripe for the reaper, spring up in a night like the gourd of the prophet,—the things that yesterday were not, are the things of to-day,—when thousands are flocking into Texas almost daily,—when 100,000 settle in Nebraska and Kansas in a single year,—when 13,000 foreigners, in a week, land at Castle Garden, and 10,000 Chinese in a month, arrive at San Francisco,—in such a time, and amidst developments so amazing, shall the Israel of God refuse to go forward? In such a time as this, when such "great doors and effectual" are opened to her by her King and Head,—amidst such stirring memories of the past, and with such a magnificent out-look for the future, shall our glorious

old Church,—the child of Home Missions,—begin to reduce her apportionments, retrench her gifts, and retreat from her outposts? This Board brings these great and momentous questions before the General Assembly, as its "Urim and Thummim," praying that the answer may prove to be "light and joy."

Further to increase the perplexity, the attention of the Church during the summer and early fall, was given to the removal of the great debt of the Foreign Board, largely to the exclusion of other objects, thus diminishing our income. Then, just at the time, when many of the largest contributing congregations and individual donors, were accustomed to give to Home Missions, they were suddenly crippled by the terrible financial crisis which paralyzed the commerce of the country, and deranged all its industries. This not only diminished our income, but compelled many hitherto self-supporting churches, to call to us for aid. Then, the public notice in the *Record* for December, that the Sustentation Committee were unable to accept any more applicants for want of funds, compelled many of them to come to this Board for help.

The collections from the churches, under the operation of these, and other causes, fell off from those of last year more than \$25,000, and the Board would have been overwhelmed with debt had not the benefactions of the dead come to us, as it were, from their graves, in the shape of legacies. In this, though dead, they have spoken words of cheer and comfort to the living and laboring missionaries.

Notwithstanding these drawbacks and discouragements, the Board, by God's blessing through the darkest times, has endeavored to pay, fully and promptly, every missionary who has reported his labors, whilst thousands, depending on vast manufacturing, mining and railroad corporations all over the land, have suffered for bread. To God be all the praise!

The receipts for the year, from April 1st, 1873, to April 1st, 1874, from all sources, have been \$297,150.65, as follows:

From Churches,
Legacies,
Miscellaneous,
Cash on acc't of sale of Mission House, Phil., 8,601 75
${\$297,150} {65}$

This is less than last year's receipts by \$7,567.32. The great loss is in the collections from churches, the more painful, as from this source the great supply must always be derived.

## EXPENDITURES.

The payments for all purposes for the fiscal year from April 1st, 1873, to April 1st, 1874, including the balance of \$7,406.14 reported to the last Assembly, have been \$304,544.70, leaving due on the 1st of April to the missionaries, \$19,500.

This burden must at once be lifted off the Board, and a large increase of means secured, if the present work is to be maintained, and the means of grace to be extended to destitute and perishing multitudes in all parts of the land. The work has grown so, and the expenses also, that the demands on the treasury are \$5,000 per month, more than in April, 1873. The cost of the work is substantially now at the rate of more than \$1,000 every working-day in the year!

For the removal of this burden already on the work, and to increase the means to extend the Gospel, may God make His people practically realize and "know the grace of our Lord Jesus Christ, that though He was rich, yet for your sakes He became poor, that ye through His poverty might be rich;" and that saying of His, "That it is more blessed to give than to receive."

## THE WORK SPIRITUALLY.

In its spiritual aspects, the work has been very hopeful and encouraging. In the autumn and early winter, especially during and since the Week of Prayer, God has graciously sent "times of refreshing" upon many of our churches. The quarterly reports from over 1,000 missionaries may be elassified as follows: The first describes their need of the reviving influences of the Holy Spirit, and mourns their absence.

The second speaks of the faint tokens of His coming, like a little cloud rising out of a great sea, indicated by an enlarged attendance, and growing, serious, and solemn attention to religion, with one here and there, awakened and inquiring for Christ.

The third class tells of "the great rain" already come. Multitudes converted and added to the church,—God's people quiek-

ened,—backsliders recalled,—wanderers restored,—the lost found, and the dead made alive again.

The largest additions to the Church on profession for years has been made this winter, fully 33 per cent. over last year. Extensive religious awakenings have usually followed seasons of great social, political, or financial excitement. It was so forty years ago, after the commercial revulsions of 1837-40. It was so also in 1857-8, amidst the disasters of that great crisis. So some of God's people, in the calamities feared or felt, in the late financial whirlwind, looked confidently for times of refreshing, and they have not been disappointed. A disposition to call upon God in prayer has been observed throughout the land, perhaps throughout the world. is worthy of our notice, too, that this disposition to pray, has extended at the very time when scientists and would-be philosophers were questioning, or openly denying, the efficacy of prayer. May it be but the beginning of the predicted and promised outpouring of the "Spirit of grace and supplications upon the house of David and the inhabitants of Jerusalem!"

There have been added to the Church during the year, as follows:

Profession of	Faith,					6,074
Certificate,						3,952
	Total,	,			•	10,026

#### SABBATH SCHOOLS.

Especial attention is given by the missionaries of the Board to the organization and conduct of Sabbath Schools, The command of the Saviour to "Feed my lambs" must never be forgotten or neglected by the church of God. There are 1,210 Sabbath Schools on the mission fields, embracing 100,000 children and teachers. 273 new ones have been organized during the year. In these schools the children are educated, in connection with the preaching of the Gospel and the sacraments of the House of God, rendering the school and its instruction, more hopeful and permanent. We commend this to the special and favorable notice of persons and congregations in our own body, who distribute their gifts for Sabbath School work through other channels and by other agencies, as if the children and youth were neglected by our missionaries.

The attention to the catechism is growing in our schools, thus grounding the children in the doctrines and duties of the Word of God.

An intelligent and lively interest in Missions, both Home and Foreign, should be constantly cultivated in all Sabbath Schools. Our children should be taught to love and pray for their country, and labor for its evangelization. We must impress this duty upon our children. Had the Church thus exercised herself, and trained her children to love and pray for their country, as they ought, during the generation from 1830 to 1860, what sorrows might have been averted, and what calamities shunned. Let the Church faithfully educate her children to seek the salvation of their country, and coutribute to this end, lest still greater sorrows befal us.

\$250 is about the average the Board pays annually to aid in the support of a missionary. How can the missionary spirit in behalf of our country, be better fostered by parents, pasters, superintendents and teachers, than by inducing such schools as are able, to assume the support of a missionary, by raising \$250 for the treasury of the Board. In all such cases, the name of the missionary is given to the school, and he is regarded as theirs, and corresponds statedly with them. Such an arrangement has been made in many instances, and has proved pleasant and profitable, not only to the childred, but to their parents, and indeed often to the whole congregation. The plan commends itself likewise to individuals, and families. How happy to reflect that by so small a sum, any one may effectually aid in the evangelization of the land, and through it of the world, by helping in the support of a missionary of the Gospel.

# SPECIAL BUREAU ON UNEMPLOYED MINISTERS AND VACANT CHURCHES.

The action of the last Assembly on this subject was most important, and in the right direction. It lays upon the Presbyteries where it belongs, the duty and responsibility of taking the *first* step in the solution of the difficulty. As they have the original oversight of the churches and ministers, if their part is done with fidelity and diligence, but little will remain for the Synods. If the

Synods carefully perform what is referred to them by the Presbyteries, there will be but little or nothing left for the Special Bureau. The chief work, according to our system of government, and in compliance with the action of the Assembly, in the supply of churches and location of ministers, must be done by the Presbyteries.

As in some sections of the country ministers may be more numerous than churches, and in other sections the churches may outnumber the ministers, yet the action of the Assembly, if thoroughly carried out by Presbyteries and Synods, will secure a just and profitable distribution. It is true, that after all has been done that can be, by Presbytery, Synod, Bureau and Board, a small number of ministers, for various reasons unemployed, and churches unsupplied, may still be found, yet the number in either case will be no greater than must reasonably be expected in a body so large, and a country so extensive. The constant effort should be to reduce the "vacant and unoccupied" to the smallest proportions possible.

The Board, in compliance with the instruction of the General Assembly (see Minutes 1873, pp. 562-3), organized a "Special Bureau on Unemployed Ministers and Vacant Churches," consisting of Rev. W. C. Roberts, D. D., Chairman, and Rev. T. S. Hastings, D. D. J. F. Joy, John Taylor Johnston, and George R. Lockwood, Esqs.

Although notice had been given in all the newspapers of the Church, inviting information from the Synods on the subject, yet it secured but little or no return. The Burean sent a circular to the Stated Clerk of each Presbytery, and Synod, asking what action, if any, had been taken in the premises,—for the names and address of all unemployed ministers able to work, and all vacant churches in their respective bounds,—with any information which might lead to their employment and supply.

Answers have been received from 12 Synods and 43 Presbyteries. Nine, of the 12 Synods, have taken action so far as to appoint committees to carry out the direction of the Assembly. Three had taken no action in the matter.

The 43 Presbyteries have taken action, and report 95 vacant churches, and 52 ministers unemployed, within their bounds. Many of these churches are supplied more or less regularly by neighbor-

ing ministers. Nearly all the ministers, whilst not settled as pastors or stated supplies, are, if able, generally engaged in preaching as they have opportunity, and in other kinds of ministerial services for the Church.

We give some extracts from the answers from two of the 43 Presbyteries. One of these is in the State of New York, the other in Illinois, and as to location and facts, are fair examples of the state of things throughout our Church, so far as shown by the reports.

The first extract is from the Presbytery in New York State, and is as follows:

"The Presbytery of L. I. has four ministers without charge. The first two have an average age of about eighty. As to the other two,—one has been a classical teacher; the other a farmer, for most of the time since their ordination some thirty (30) years ago. One is able to write good sermons,—the other has the physical strength to preach them,—but neither of them for a dozen years past, has deemed it his duty to labor in the common work of the ministry, in any field open for the purpose."

The other extract is from the answer from the Presbytery of S. in Illinois, as follows:

"As reported in the minutes of the General Assembly of 1873, there are 7 ministers without charge, and 9 churches vaeant in our Presbytery. In almost every case, these ministers have done their work, and by age and infirmity are laid aside. As to our vacant churches, several are now supplied. Others are very weak and poor, and exist only in name. There is not vitality enough in them to make a move, or even to answer a letter when written to, and urged to do something, with the assurance that the Committee on Home Missions would render them all the help in their power.

"The ministers unemployed are as follows:

- Rev. — was pastor of Pisgah for 30 years. Aged.
   Rev. — Nearly 90 years of age.
   Rev. — Aged, and infirm.
   Rev. — Rich, and infirm.

- Rev. . Aged and on a farm.
   Rev. . Throat disease. Farming.
   Rev. . Bronchitis. Poor health.

## "The vaeant churches are:

- B—Five members at last report. Dead.
   B—No house of worship. Wish to disband.
   B—No place of worship. Members wish to disband.
   I—The church gone with "the Ten Tribes."
   N—Almost extinct. One male member.

"Although I have never hitherto had 'W. C.' attached to my name, yet it is now my position. After laboring in the West for forty-four years without being for a day unemployed in the work of the ministry, and never a 'Candidate,' I am now, by age and infirmity, compelled to seek rest. At the organization of the Synod of Illinois in 1831, I became a member, and to-day stand alone, as not one of the original members are left in the State, and only three are living."

These extracts from Presbyteries so widely separated, fairly illustrate the state of the work throughout the Church.

Many of these 52 mmisters memployed, reported by 43 Presbyteries, are preaching as temporary supplies to vacant churches. One is reported as having a nursery,—one a trade,—one a sehool,—another a farm,—and two are insurance agents. Thus, after deducting the aged and infirm, and those preaching as they have opportunity, but six are found in secular but honorable pursuits.

From these answers from the 43 Presbyteries and 12 Synods, we are compelled to the eonelusion, that many exaggerated statements have been made, and opinions entertained in regard to the number of our ministers without employment,—statements, unjust to the ministry, discouraging to the Church, and injurious to religion.

Constant attention has been given, by both the Board and the Bureau, through the Secretaries, to secure employment for ministers requesting it, and supplies for churches.

It is recommended to the General Assembly to renew its injunction to the Presbyteries, the Synods, and the Board, to continue to carry out the action of last year on this subject.

# CONFERENCE WITH THE AMERICAN HOME MISSIONARY SOCIETY.

A conference was held by the Secretaries of the Board, with the Secretaries of the American Home Missionary Society, at which a Committee was appointed to consider and report a plan to prevent, if possible, the conflict of feeble churches in the towns and villages of the West. Owing to sickness and other causes, the report has not yet been made, and hence no plan yet adopted for this desirable end. An examination, however, into the statistics of the Board and Society in the three principal States, viz.: Illinois, Iowa,

and Miehigan, in which this friction chiefly exists, shows it to be far less than has hitherto been supposed. In 1618 churches, located in nearly 1600 places in these three States, there are less than 85 in which each denomination has a church of less than 60 members receiving aid from the missionary treasuries of their respective ehurches. The number, from this statement, of churches dependent upon aid outside of themselves, is far smaller than often and vividly represented by interested or ill-informed parties. It is larger than desirable, considering the searcity and sacredness of missionary funds, yet perhaps not larger than may be reasonably expected, in view of all the varying circumstances of the people, and conditions of the work and field. The time is not yet, when God's people or "watchmen see eye to eye on the walls of Zion." Besides, it may be a question, whether, in many places, more good is not accomplished by a lawful competition in the work of different denominations, in such a growing country as ours.

### GROUPING FIELDS.

The attention of the General Assembly has been repeatedly called to the vital importance of uniting feeble contiguous congregations in the support of a pastor, in order to economize the funds of the Church. The men and means thus saved will send the Gospel to the frontier, and this economy of our resources is worthy of the most serious attention as the only way to supply our ever-growing This is one point where retrenchment can be safely destitutions. recommended. In the older States, there are churches reduced by removals, long receiving aid, which should be urged, if able, to self-support, or required to unite with other fields. In a country so vast, and in destitutions so widespread, with our ministry and means, grouping churches and "circuit-riding" for our ministers, is the only way. It was the way of the fathers and pioneers, who laid the glorious foundations on which we are brilding. The tendeney now on the part of both ministers and people, is towards settlement at single points. The whole power of the Presbyteries will be needed to secure the necessary grouping for the extension of the means of graee.

## WORK AMONG FOREIGNERS.

The Board is giving increasing attention to mission work among German, French, Spanish, Holland, Scandinavian and Chinese speaking peoples. These fields of labor are growing in interest, extent, and importance,—in interest as the success is more manifest,—in extent, as the numbers from these nationalities enlarge daily,—in importance, as the welfare of the country is influenced by these migrations.

The work among the Chinese is growing and hopeful. Although the mission to the Chinese, in its ostensible form, is conducted by the Foreign Board, yet all our Missionaries and churches on the Pacific Coast, and some in the interior, have ready access to these people through their urgent desire to learn our language. Multitudes are gathered into our Sabbath Schools, and receive instruction in our religion, as well as in our language. The children of all nationalities are thus open to our practical compassions. It is chiefly through their children that the Gospel is softening and sanctifying the adult foreign population. It is well worth the inquiry, whether our rising ministry ought not to be more largely trained to speak in their own language to these people, the "wonderful works of God." The mass of our ministry are as thoroughly shut out from these great and growing peoples, as were the builders from one another, by the confusion of Babel.

#### WOMEN'S WORK.

Both Home and Foreign Missions need the prayers and sympathies of the women of the Church, and both need enlarged contributions.

Prayers, sympathies and benefactions are apt to go hand in hand—or, to speak more accurately, our prayers and sympathies inevitably cluster round the objects of our benefactions. To turn all the benefactions of the female members of the churches away from Home Missions, would be to close their hearts against them. They need to give to both, that they may pray for both. They need to give to both, because both are alike needy. It is quite useless to try to determine which is the more needy, when there are vast fields ripe for the harvest in both departments,—more

places in each ready for the reapers, than there are reapers or means to sustain them.

It has sometimes been urged that the Missionary Boxes sent to the missionaries ought to be the measure of the benefactions sent from the Christian women in the churches, to their sisters in the Home field. But there are many who are beginning to see that it is better to send more money to the missionaries. Missionary Boxes are of great value; but the Home Missionary work needs more money. Money is indispensable.

Missionary Boxes, which are never counted by us as any part of the salary, but as wholly a gratuity to the Missionaries, have been sent out in great abundance, and in this way relief has been furnished to many a needy family. But these boxes ought not to be the measure of the benefactions from the female members of our churches to their sisters in the Home field. *More money* for an adequate salary, is better than many boxes. And many of our female missionary societies so regard it, and cannot content themselves without adding donations in money for our treasury. The movement in behalf of Foreign Missions, awakens the conscience and sensibilities of the women in behalf of Home Missions.

It has been thought by some that there is nothing in the Home work to draw out the sympathies of Christian women, like the female missionaries and female pupils in the Missionary Seminaries abroad. But the difference is more apparent than real. On the Foreign field the female helpers are named and commissioned; but on the Home field there are a thousand wives of missionaries, as true helpers as any on the Foreign field-counselling, encouraging, assisting and sustaining their husbands in their work; suffering hardships and privations for the sake of Christ; many of them passing through the perilous and thrilling incidents of real life on the frontier; exercising marvellous patience and courage, and all the heroic virtues, and doing more good than any similar number of women in America! They are not named in our Reports as they are in Reports of the Foreign Board. If they were, it would swell our numbers to nearly two thousand. But, numbered or unnumbered, the comfort of every one of them hangs on the ability of the Home Board to grant their husbands adequate pecuniary aid. When the Board has been unable to grant the whole amount adplied for,—as has been the case in hundreds of instances, during the year past,—it affects not only the missionary himself, but his wife and his children, even the tender babe in its mother's arms. It cuts off food for the mind, and food for the body. The reduction is felt in the library, in the wardrobe, in every department of the household. A thousand wives of missionaries are toiling harder, bearing heavier burdens, and suffering from scantier supplies for themselves and their little ones, because we cannot obtain the means to give them the aid they need.

Shall it be said that the Christian women in our churches have less sympathy for this great number of their sisters suffering in the missionary work in this land,—or that it is all expended on those who labor the other side of the world? If the facts are once fairly set before them, we cannot doubt that they will decide to help those at home as well as those abroad.

Every contribution made to us, every dollar given, helps lift the heavy load that is weighing them all down. And we think the women in our churches cannot afford, and will not consent to let their sisters suffer because they are only Home Missionaries, or leave them entirely to the helping hands of the other sex.

The same want of harmony which characterized the work among the women last year, has prevailed this year. Some are determined to restrict their contributions to Foreign Missions, while a growing number is in favor of a form of organization which embraces both Home and Foreign Missions. More men have made up their minds and more women are beginning to perceive, that an exclusive policy that shuts out Home Missions, is a policy neither wise nor profitable. The missionary work is one; and our churches still insist on and will have a liberal policy. They claim that minorities have rights, and that if there be a Woman's Missionary Society in a congregation, it is equally the right of any of its members to give money through that organization to either Home or Foreign Missions, and that if they cannot have that privilege, they will be constrained, though reluctantly, to organize societies solely for Home Missionary work.

### FIELDS.

We quote the following from a memorial from the Presbytery of Anstin, adopted at a late meeting and forwarded to the Board:

Dear Brethern: Convened in the good providence of God in our Presbyterial capacity, we feel it to be a duty which we owe not only to ourselves, but to the Board of Home Missions, the Church at large, and more especially to the Great Master,—to add a few lines in regard to our church interests in this extended and promising field of Texas. As to extent of territory, fertility of soil, variety and quantity of production, Texas has few if any equals. With these prospective advantages in view, an immense stream of immigration from the States, as well as the Old World is turned thither with wonderful energy and wealth.

"It is said by those who have the means of knowing, that 100, 000 have been added to the population during the last year, and a still larger increase is expected this year. And now the question presents itself, What ean our Church do to supply the wants of

this people spiritually?

"An important crisis is upon us. The thousands of Presbyterians scattered over the length and breadth of our state, must be gathered,—organized into churches,—grouped into missionary fields, and supplied with an efficient ministry. It is a great work, and cannot be longer neglected. To do this work and supply these destitutions, we must have men and means. We must have, if they can be got, at least 18 or 20 men besides those already in the field, and their certain support, if possible, pledged by the Board for the first year. In our great need we would press, with importunity, our cause. Send us twenty devoted men, willing to spend and be spent in their Master's service. Our plea is before the Board. As in the past, so in the future, deal with us kindly and liberally. As an evidence of the interest you feel in the enlargement of our beloved Zion in this great State, send us a score of devoted men, with as liberal provision for their support as the condition of your treasury will warrant."

After carefully canvassing the field, they mention the names of twenty towns, each the seat of justice of a county, and three embracing two counties in each field; they estimate that the settlement and support of these twenty additional men will require at least \$20,000. The men ought to be sent, the money ought to be given. Shall the Church enable the Board to meet this emergency?

Many of our people have already gone, and many more will go in increasing numbers every year, calling on us loudly to supply

them, and the destitutions over the State with the preaching of the Gospel.

The new towns and settlements along the rail-roads, especially demand our eare and attention. In the north part of the State it is said that there is a belt of country, 200 miles long and 65 miles wide, the finest agricultural portion of the State, in which there is no minister of our name, and but few of any name,—although there are many towns, and villages, and settlements, waiting to welcome our missionaries. This territory will be traversed by three or four of the great railroads now in process of construction, and hence will be rapidly filled with people.

Shall this wonderful State, with her great resources and her vast future, fail to excite the attention and awaken the solicitude of our churches? Shall the Board be hindered in immediately and fully occupying this vast field, by want of men and means? Texas is the great door-way to Mexico. Their boundaries are co-terminous, the Rio Grande alone, separating them for 2,000 miles. Mexico, with her 10,000,000 so near to us, must always be of special interest to our Church and country. As the gate of access to Mexico then, the evangelization of Texas has an increased importance. The whole State is entering on a new era, and is undergoing a unifying process. The Gospel alone can render it healthful and permanent. The thoughtful among her people are anxions to redeem her from past reproach, and to secure such a character as religion alone can create. Everything, therefore, favors an immediate and large addition to our missionary force throughout the State. Let us arise, then, and enter this "great door and effectual," extending the Gospel over all Texas, and thus preparing the way for the conquest of the wandering millions of Mexico for Christ.

Kansas received an addition of 100,000 to her population last year! Many new churches were organized, and all have enjoyed a good degree of spiritual prosperity. The Board employed last summer a missionary, with a wagon and preaching-tent, to itinerate among the poor and destitute people, chiefly "Homesteaders," in the north and western section of the State. Preaching was had every Sabbath, and almost every night in the week. The week-

night eongregations usually averaged 100, and the Sabbath attendance varied from 150 to 300, according to the size of the settlements. Five churches were organized, and multitudes heard the Gospel in these "regions beyond." The same course will be pursued the present season. The means for the outfit, wagon, mules, tent, etc., and a portion of the salary of the missionary, were raised by Sabbath Schools.

In Nebraska, the work has so enlarged that three Presbyteries have been organized, and they hope to have a Synod formed within the year. It is the most needy, and promising, of our mission fields.

Iowa and Minnesota are making steady progress, strengthening and extending, as the States fill up with people. Minnesota alone asks \$23,000 for the work for the present year.

In Dakota, a number of promising beginnings have been made, and new men are called to occupy interesting and rapidly growing points.

Colorado has developed with great rapidity since the completion of railroads, and the opening of rich mines in the mountains.

In Wyoming, the work along the Union Paeifie Railroad experiences, as was to be expected, many vieissitudes. The towns, where our congregations are, are mostly on the Railroad, and exposed to the eonstant fluctuations common to such communities.

In Montana and Idaho, the laborers are few, but devoted, and their labors have been successful.

In Utah, there are 100,000 Mormons, and 20,000 or 25,000 "Gentiles," so-ealled. Our Church has but five missionary organizations amongst this most needy and interesting population. The recent and extensive discovery of rich minerals, is drawing a large migration thither. The civil, social and religious aspects of this Territory ought to excite the solicitude of the whole country and Church. God is evidently employing means for the final overthrow of the baleful institutions and superstitions of Mormonism. The recent and extensive discovery of the precious metals is attracting a vast migration to the wonderful mountains and valleys of Salt Lake. Our new mission in Salt Lake City is meeting with great success and favor with all classes, and holds out large pro-

mises of good. There ought to be a number of missionaries itinerating through the Territory, to recall the misguided Mormons to the Gospel, and to minister to the spiritual wants of the multitudes who are developing its vast mineral resources. It occupies the heart of the Continent, and ought to be purified by the Gospel. The valleys of Nevada, Montana, and Idaho, stretching for hundreds of miles between the various ranges of the Rocky and Sierra Nevada mountains, are rapidly filling with settlers, attracted by their fertility, pastnrage, or mineral wealth. Men of faith and eompassion are ealled for to look after these new and widely seattered settlements. Then beyond these valleys and mountains spreads the great coast of the Pacific, embracing California, Oregon, and Washington Territory, extending some 1500 miles along the Ocean—more than five times as large as New England—equal in extent to the great States of New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North and South Carolina, Georgia, and Florida, or the entire Atlantic slope sonth and west of the Hudson, with a climate pleasant and genial throughout, modified by the great Chinese Ocean enrrent, which strikes onr eoast from San Diego, to the Straits of San Juan; bringing on its bosom to the continent soft airs and fertilizing showers, securing thereby such fruits, and grains, and pastures, as surpass any section of the East; these, together with inexhaustible supplies from the mine and the forest, have attracted already, in so short a time, a population of nearly three-quarters of a million, and invite millions more to prosperous homes.

Our settlement of the coast began in 1848, on the finding of gold in the broken mill-race of Colonel Sutter. Considering the difficulties encountered in doubling Cape Horn, crossing the Isthmus of Darien, or traversing 2000 miles of Indian plains, and almost impassable mountain-ranges, the progress of population has been without a parallel in modern times. The vast importance of this eoast is not seen alone in its great extent, its genial climate, its various and valuable productions, its rapidly increasing population; but also in its relations to the rest of the country and the world—its proximity to, and growing connection with the 700,000,000 of the crowded nations of Japan, China, Siam, Burmah, India, and

the populous islands of the South Pacific;—nations more or less advanced in manufactures, commerce and civilization for thousands of years before this country was discovered; whose gold, and gems, and fabrics, and spiceries—whether carried by ship or caravan—have enriched Assyria, and Egypt, and Greece and Rome, and the modern nations of the West of Europe, from immemorial times. This position—constituting it the gateway from the West to the East, and from the East to the West—fixes its importance, and foreshadows its indescribable future. So surely as the discovery of the Cape of Good Hope left to dust and desolation the long beaten paths and marts of the overland commerce of the Orient, so surely will the construction of the great rail-roads across this Continent secure the trade of Asia and the Islands, through San Francisco, Portland and Pnget Sound, to the Atlantic seaboard. The Pacific coast, then, from all that it already is, and from the boundless future it promises to ourselves and mankind, calls to the Church for thorough evangelization.

The completion of the Union and Central Pacific Rail-roads, and branches, and the projection and progress of the Northern Pacific Rail-road—completed already to the Missouri River, and also from Columbia River to Puget Sound, are attracting large migrations, especially to Oregon and Washington. The Dalles, Cascades, Vancouver and Kalama, on the north side of the Columbia; Monticello, the valleys of the Cowlitz and Chehallis, Bellingham Bay, Ports Townsend, Madison, Ludlow, Tacoma, and scores of other places in Washington, are calling for ministers to look after the incoming "multitudes, scattered as sheep having no shepherd." Many counties in Oregon and California have no minister or public means of grace, and a generation is growing up without the preaching of the Gospel. Indeed, on the whole coast, with its 1,000,000 people, we have but one minister of our Church to every 10,000 souls!

The work has been especially prosperous on the Pacific during the last year. The sonthern portion of California, by its climate, now so celebrated for its mildness and salubrity, is attracting a large and substantial migration. Many congregations have been gathered, and ministers settled, during the year. The future of the Coast is very hopeful for our work. Indeed, the growth of our Church, in the quarter of a century since its settlement on the Pacific, is most gratifying, considering the difficulties to be overcome. In this period, the church has grown to a Synod, consisting of 6 Presbyteries, 103 ministers, 89 churches, 5,669 members, and raised last year, for religious objects, \$280,000.

## IMPORTANCE OF THE FIELD AND WORK.

None but God only can estimate justly the importance of such a work, at such a time, and in such a country. The conversion of the world to Christianity, depends largely on the Churches and Christians of this land. Our work and our Church hold no mean place amongst the churches of the land or the world. With its members,—its gifts,—its past history, and present position, it cannot be overlooked, scarcely overestimated.

It was the unanimous and urgent conviction and testimony of the Foreign Delegates to the late illustrions Evangelical Alliance, that, humanly speaking, the spread of the Gospel among all nations, depended upon this land,—that the preservation and extension of civil and religious liberty throughout the world, under God, was chiefly committed to our care, because the other and older christian nations are prevented, by their present or prospective struggles, from doing much outside themselves,—that the Ark of the Covenant of the world's hope, was entrusted to our keeping,—that the Gospel alone can save us from the fate of past republics, and keep us diligent and faithful to our great trust; and hence the inexpressible importance of preaching the Gospel, and the firm planting of its blessed institutions, and the thorough evangelization of the masses from foreign and heathen lands, as well as our own people.

May the Assembly, and the churches, clearly and practically realize its importance, and act worthy of their convictions and responsibility.

## CONCLUSION.

We have endeavored thus to lay before the General Assembly and the Church, the past year's history of our work, and to point out the duties and prospects of the future.

Notwithstanding our financial discouragements, times of refreshing and revival have been enjoyed over many parts of the missionary field, and multitudes have felt the awakening and converting power of the Holy Ghost. The preaching of the Gospel has been owned of God, the membership in many churches greatly increased. May it prove to be the beginning of the times of refreshing from the presence of the Lord, foretold by all the prophets since the world began, from which will flow the thousand years of rest and joy.

A crisis seems to have come in our work. Shall it be stationary, or go backward, or advance rapidly to its completion? stand still. It must retreat or advance. Considering the changes arising from the marvellous extension of the railroad and telegraph systems,—the vast migrations eaused thereby,—the enlarging floods of people from foreign and heathen lands,—the unparallelled inerease of material wealth, with its dangers,—the unsettled state of the land and the world—the growing influence of our country on the progress of civilization and Christianity among its own millions now, and on its hundreds of millions soon to be, and on the countless multitude of millions of the race,—the vast approaching changes amongst the nations predicted and promised in the Word of God, and so long expected by His people,—eonseious of the great trust He has committed to our use in men, and means, and gifts and talents, and opportunities,—eneouraged by the signs of the times as foreshadowing the speedy fulfilment of the predictions and promises as to the universal spread of the Gospel,—eheered by what He has already done, is now doing, and is able still more to do—let us arise and possess this great and "goodly land which the Lord God of our fathers hath given unto us."

The term of service of the following members of the Board expires with the present meeting of the General Assembly, viz: *Ministers*—Rev. Wm. C. Roberts, D. D.; Rev. Thos. S. Hastings, D. D. *Laymen*—Jos. F. Joy, Jaeob D. Vermilye, Edw. A. Lambert.

## GENERAL SUMMARY.

#### APPENDIX.

## REPORT.

OF THE

# Standing Committee of the General Assembly

### HOME MISSIONS.

The Standing Committee on Home Missions having attentively considered the Annual Report of the Board, respectfully recommend the following matters to the consideration of the General Assembly:

There has been great and unusual spiritual prosperity in the churches assisted by the Board. These churches have shared largely in the religious revival which has prevailed so extensively throughout our land, and also in Great Britain. increase in their number of communicants is reported 33 per cent, greater than in the preceding year. The whole number added on profession of faith, to these churches, exceeds 6,000. This increase of numbers is believed to be attended with as marked an increase of prayerfulness and of Christian zeal and fidelity in these churches. The Assembly surely will not fail to begin its review of its Home Missionary work for the year with devout and thankful acknowledgement of this abundant divine merey.

II. Deaths. The following missionaries have departed this life during the year, viz.:

Rev. Ellis W. Lamb, April 2d, 1873. Rev. John Summers, Oct. 8th, 1873.

Rev. L. P. Sabin, Nov. 10th, 1873. Rev. Melanethon Hughes, Nov. 18th, 1873.

Rev. J. Sanford Smith, Sept., 1873. Rev. M. B. Gregg.

Rev. J. Mead Drake, Dec. 7th, 1873.

Rev. Henry J. Aeker, Jan. 3d, 1874.

Rev. S. A. MeElhinny, Jan. 29th, 1874.

Rev. S. B. Shaw, March 22d, 1874.

These all having testified the Gospel of the grace of God, entered with peace and joy into their everlasting rest.

III. The proper work of the Board has evidently been prosecuted with a diligence and fidelity deserving the cordial commendation of the Assembly and the Church,

- IV. As in former years our field of Home Missions is still rapidly extending, by the flow of population, into the newer States and Territories, and some of the problems in our Home Mission work are becoming exceedingly difficult, by the large accessions of foreign population.
- V. The Board is seriously hindered in its great work, and the comfort and usefulness of our missionaries are impaired, by the lack of funds. Of the \$352,000 recommended by the last General Assembly, to be raised during the year, less than \$300,000 were realized; of which over \$57,000 came from legacies. The income was less than in the preceding year by \$7,567.32, and there is now reported due to missionaries, \$19,500.

VI. The annual report gives merited prominence to the relations of Home Missions to Sabbath Schools.

On the one hand, Sabbath Schools are recognized as constituting an important part of the field of labor of missionaries, who are sent to feed and lead and shelter the lambs as well as the sheep; and on the other hand the Sabbath Schools are encouraged to take part in raising funds for this cause. A special encouragement is wisely given to this effort, by assigning some one missionary as a correspondent and co-laborer in the Home Mission work, to any Sabbath School which will contribute \$250 to the treasury, this being about the averaged sum received from the treasury by a Home Missionary. Your committee regard this method of interesting Sabbath Schools, and also churches and individual donors, in particular men and fields, as of great value.

VII. "The Bureau for unemployed Ministers," ordered by the last Assembly, has been organized by the Board, and is rendering valuable service. Its investigations seem to justify "the conclusion that many exaggerated statements have been made, and opinions entertained in regard to the number of our ministers without employment—statements unjust to the ministry, discouraging to the Church, and injurious to religion."

Your committee recommend the continuance and the vigilant activity of this Bureau, not only for the defense of our ministry against such unevident and unjust reproaches, but also for assisting to find suitable opportunities for labor for honest and worthy men and churches who may providentially need such assistance.

VIII. Your committee would specially commend the considerate and fraternal effort of our Board to harmonize our work with that of our congregational brethren on the same fields, so as to avoid waste of means and strength, and to make the resources of both bodies go as far as possible in accomplishing the common end—the thorough evangelization of our country. We may congratulate both denominations upon the evidence found by their secretaries, that there has been less of unworthy competition heretofore than has sometimes been alleged.

IX. The proper grouping of fields so as best to utilize the services of missionaries able to minister to more than one congregation engages the attention of our Board and Secretaries. This will, of eourse, be facilitated by the new adjustment of the Sustentation work, and that addition to the work of the Home Board gives it increased importance. It is to be hoped that congregations asking and accepting aid from the Church, will cordially second these efforts of the Board.

It is also of vital importance that congregations receiving aid be urged to the most earnest and diligent endeavor to become self-sustaining. Let the children be ambitious to grow and to run alone, and to leave the lap of the mother to their successors.

The women of our Church are invited by the Board not only to continue their generous and affectionate endeavors to promote the comfort of the missionaries' families by donations of "boxes," but also by organized effort to furnish money for the increase of their salaries. Some difficulty has been experienced in regard to this in adjusting the arrangements for raising funds, both for Home Missions and for Foreign Missions, so that the efforts shall be in complete harmony.

The hearts of our sisters are in both these enterprises. The same women who are most ardent in their desire to send the Gospel abroad are most zealous in efforts for the evangelization of their own neighborhood and their own land. A portion of them have thought it best to let the same organization embrace both objects, and to let the work of both be supervised by the same ladies. Others have thought that the whole work will be most efficiently done if a separate Board of ladies have charge of each. Your committee are informed of consultations among the ladies interested, which gave promise of harmonious adjustment, and of increased efficiency in the prosecution of the women's work in both departments.

In view of the difficulty of giving time to the management of additional societies, in some localities, the proposal has come to us from a highly influential quarter, "that the women of every church (so far as possible) should give special attention to raising money for our Home Board two months every fall e. g., October and November (or November and December). This would give time to hold at least one meeting to present the object and to make collections, also for the putting up of boxes by those wishing or able to work only in this way."

It was further suggested, "that the Home Board should keep it in their own hands; that they should not wait for ladies to take it up of themselves, but should appoint a lady in each of several central positions, who, with such help as she could secure for herself, might bring this matter of raising money for Home Missions under our Board before the ladies' societies, or the ladies in her appointed district."

Your committee respectfully and emphatically commend these womanly and business-like suggestions to the approval of the Assembly and to the maturing consideration of "our Home Board." In one or another form, through existing organizations or otherwise, as their wise hearts, counseling with the wise minds of our Board, may devise, we trust that a large increase of efficiency will be secured, and that steadily more and more this one mission work, for our land and for other lands, will become the work of our homes.

The annual report closes with a survey of the field.

Your committee would ask attention to its vastness and variety, and marvelous promise. From the Rocky Mountain region, with its rich mines and its health restoring air, inviting population; from Texas receiving annually 100,000 people upon its fertile lands, and into its rapidly building towns, along its as rapidly extending railroads; from New Mexico, where a superstitious native population of 100,000 need the Gospel to save their souls, and to fit them for American citizenship; from Florida, to which so many from the North resort, and where we are told of 4,000 Cuban refugees permanently settled; from the Indian Territory, where

70,000 people—Cherokees, Choetaws, Creeks, and others, are as ready for the gospel as almost any population; their leading men, intelligent Presbyterians, earnestly invoking our help to evangelize their people, and to prepare them for the equal American citizenship, into which their old relations are probably soon to be merged; and from dear New England, whose manufacturing enterprise attracts so many artisans, from Scotland and Ireland, and the Provinces, and whom generous New England welcomes to the free exercise of our Christian faith under their preferred ancestral Presbyterian forms; from all these, representatives have come personally before your Committee, pleading in utmost earnestness for a great increase of means and of force in the prosecution of this work.

And now the Assembly has decided to commit to "our Home Board" all that work heretofore so carnestly and ably prosecuted under the name of "Sustentation," or the running and uourishing (into self-supporting strength if possible) of feeble pastorates.

For both these departments, as they were then conducted separately, the last General Assembly asked the people to contribute \$435,000.

In the present condition of the field and the work, in the better adjustment of agencies, with the offered help of our sisters, and with the greatly increased spiritual strength resulting from the recent extensive revival, your committee would think it unworthy of our Church to propose the devoting to this cause, during the coming year, of less than \$500,000. We assuredly believe that, by properly bringing the request home to all the people, in their churches, and at their homes, this sum can be raised, and will be usefully expended by "our Home Board."

The term of service of the following members of the Board expires with the present General Assembly, viz: Rev. Wm. C. Roberts, Rev. Thos. S. Hastings, Joseph F. Joy, Jacob D. Vermilye, Edw. A. Lambert. Your committee recommend the re-election of them all.

All of which is respectfully submitted.

In behalf and by order of the Committee,

H. A. NELSON, Chairman.

The Report was unanimously adopted by the Assembly,
